

Training Options

Training Option	Details	Date(s)
On Site ¹	A Lancet instructor would come on-site and do training with your staff using your system and your data. The number of attendees is up to you and space restrictions.	Contact Lancet Support Personnel for Availability
Online ²	A Lancet instructor would conduct customized one-one training online via WebEx with one member of your staff using your Trauma One system during training. Other members can observe the training and participate in the teleconference portion of training.	Contact Lancet Support Personnel for Availability
Regular Bi-Monthly ³	This is a Lancet instructor led bi-monthly set of four (1.5hr) sessions with undetermined number of participants. Each participant just observes and takes notes. The instructor leads the sessions and uses Lancet's standard Trauma One system (not your system). Participants can ask questions during the training.	Session 1 of 4 -TBD- Overview & Multi-variable Reports Session 2 of 4 -TBD- Single & Two-variable Reports and Populations Session 3 of 4 -TBD- Populations & Date Validation Exception Reports Session 4 of 4 -TBD- Constraints, Linking, Repeat sets, and Batches
Bi-Annual Training- Lancet's Boston Office	This is a lancet instructor led set of training days held in our Boston office twice a year. Lancet provides a laptop with our standard training Trauma One system for each attendee.	Basic-Proficiency Reporting - 5/23/12- 9am-4pm Advanced Reporting - 5/24/12- 9am-4pm Basic-Proficiency Reporting - 10/9/12- 9am-4pm Advanced Reporting - 10/10/12- 9am-4pm Customization Tools -10/11/12 & 10/12/12 – 9am-4pm
Regionalized Training- Lancet Customer Sites ⁴	This is a Lancet instructor led set of training days held at various customer sites throughout the country twice a year. Lancet provides a desktop/laptop with our standard training Trauma One system for each attendee.	The 2012 schedule is not finalized but we are looking to schedule training in Ventura County CA and Central Florida
"Spot" Online Training	This is a Lancet instructor led short online training session focused on one specific (spot) reporting need. Each participant just observes and takes notes. The instructor leads the sessions and uses Lancet's standard Trauma One system (not your system).	It is offered sporadically throughout the year with email notices given to our users of upcoming sessions

*New to Trauma One? Or just want a refresher? Contact a support representative to schedule a training session **today!***

support@lancettechnology.com or 1-800-5-LANCET

¹ Cost includes our travel expenses.

² We suggest at least 4 sessions to learn the report writer.

³ These 4 sessions usually covers the same material in option #2.

⁴ If your hospital has a training lab and would like to sponsor this kind of training, please let us know. You could send all of your employees for free.
